The meeting started with recitation from the Holy Quran and the chair welcomed the participants.

Deputy Director (Paramedics) has explained the background of the case stating that twenty percent (20) quota has been reserved for promotion of degree holders having degree in the relevant technology which is reproduced as under:-

Twenty percent by promotion, on the basis of seniority-cum-fitness, from amongst the Chief Technicians, Senior Technicians and Technicians having qualification prescribed for initial recruitment with three years service as such in the relevant technology"

Moreover, the forum was apprised that in a meeting held on dated: 28-02-2017 under the chairmanship of Director (Admn) at Directorate it was recommended that conditionally the names of degree holders i.e Microbiology/Biochemistry/Biotechnology and Histopathology may be included in the seniority list of qualified Paramedics of Pathology cadre till a separate cadre of the said categories is framed.

It was pointed out that the aforesaid recommendations led to myriad of departmental appeals by the Medical Laboratory Technology (MLT) degree holders of Pathology cadre. Recently, MLT degree holders submitted an appeal to Chief Minister, Khyber Pakhtunkhwa on dated: 16-02-2019 stating that their seniority have been affected due to inclusion of Microbiology/Biochemistry/Biotechnology and Histopathology despite being irrelevant degree in the seniority list of Pathology cadre.

With due reference and humble submission, it is stated that:

1. The paramedical cadre was previously comprised of 57 specialties (Annex- I).
2. The Govt. of KPK vide its notification No: SOH.III/8-60/05 (Paramedics) dated 16th May 2006 restructured it and restricted the paramedical cadre to 14 technologies (Annex-II).
3. The recruitment rules were also reframed primarily in 2006 (Annex-III/B) and later on 10th May 2016 (Annex-IV), wherein the method of recruitment and qualification for all the 14 Technologies were as specified in the said rules.
4. It was prescribed that the posts of Technologist (B-17) in all the technologies shall be filled in:
 - i). 40% by promotion from amongst the chief Technologist (B-16) with 5 years' service as such.
 - ii). 20% by promotion on the basis of seniority- cum- fitness from amongst the chief technicians, senior technicians and technicians having qualification prescribed for initial recruitment with three years' service as such in the relevant technology (a joint seniority list) with reference to the acquiring higher qualification will be caused for promotion against this quota.
 - iii). 40% by initial recruitment.
5. For the purpose of causing a joint seniority list, a committee was constituted to ascertain the higher qualification (Graduation or Post graduation) and the relevancy of that qualification to the pathology technology.
6. Based on the report of the committee (Annex-V), wherein it was recommended that the degree holder paramedics in Microbiology, Biochemistry, Haematology and

ED

Histopathology / Cytology having relevant subjects to the pathology technology be included in the joint seniority list for the purpose of promotion to the post of Technologist (B-17). It may be mentioned that in the old service rules of 1999 (Annex-III/A), the M.Sc Microbiology and Biochemistry were tagged with B.Sc Medical technology and 50% promotion quota was prescribed for them. How these specialties of Microbiology and Biochemistry etc are irrelevant now?

7. A joint seniority list was accordingly drafted (Annex-VI), where in the B.Sc Medical technologists and the aforesaid postgraduate degree holders in Microbiology, Biochemistry, Haematology and Histopathology/Cytology were included.
8. However on the move of Medical technologists, another committee was constituted which declared that these postgraduate degrees are not relevant to the pathology technology (Annex-VII) and another joint seniority list is being prepared (Annex-VIII) where form the undersigned degree holders in Microbiology, Biochemistry, Haematology and Histopathology/Cytology are being excluded.
9. It may be pointed out that the undersigned degree holders in the aforesaid four disciplines were not participated or called for in the proceedings of the committee to defend their position as the said committee erred to declare that these subjects are not relevant to the concerned technology. It may be mentioned that the paramedical cadre is comprised of 14 technologies, from amongst which pathology (Mentioned as technology No IV against no 4 in the relevant rules) is one technology. The various specialties of Microbiology, Haematology, Biochemistry and Histopathology / Cytology are sub branches of the said Pathology technology. As such all these sub specialties / specialties are functioning under a single umbrella of pathology department.
10. Even in the basic course of medical faculty imparted to the paramedics, rudimentary knowledge of aforesaid main specialties are included and the B.Sc Medical technology course is nothing but an aggregates text of all these main specialties. Technologist (B-17) remains paramedics under the overall supervisory control of the consultant, who have this very qualification which the applicants paramedics have acquired and claiming promotion on the basis thereof. The paramedics with the said higher qualification become more capable technologists for the pathology which is relevant technology for all these subjects. There is no irrelevancy of these M.Sc subjects with B.Sc Medical technology and concludingly to the pathology technology.
11. If M.Sc / BS (Hons) in Microbiology, Biochemistry, Haematology Histopathology / Cytology are not relevant to the pathology then in which other technology these are relevant, whereas the pathology department is everywhere supervised by consultant recruited on the basis of these qualifications.
12. In view the above, the conclusion drawn by the second committee on the move of the Medical technologist excluding the applicants is unfounded and based on wrong assumptions / assessment. All these subjects are solely pertain to the pathology in the

health delivery system and any Medical lab (Pathology Department), cannot be run without the personnel's equipped with these qualifications. It is there ridiculous that the paramedical staff with the said postgraduate qualifications is excluded from the pathology cadre.

It therefore requested that the said recommendations of the second committee may please be receded wherein in these pathology disciplines have been excluded, and the seniority list of graduate and postgraduate paramedics prepared on the basis of recommendation of the first committee as on 17/01/2017, may be treated as final for the purpose of promotion to the posts of Technologist (BPS-17) against 20% quota prescribed in the relevant rules.
